#### HALSWELLE "BORED" HIMSELF.

Amid the cheers of several hundreds of his countrymen, Halswelle, the English runner, this morning "walked over" in the final of the 400-meter flat race in the Olympics which was run originally last Thursday and won by J. C. Carpenter, Cornell university. This is the race that was declared void by the judges on the allegation which has been denied by the Americans that Carpenter fouled Halswelle. Carpenter was disqualified from competing again and J. B. Taylor, Irish-American Athletic club, and W. C. Robbins of Cambridge Mass, withdraw and would Cambridge, Mass., withdrew and would not run today. Halswelle did not really walk; he

Halswelle did not really walk; he ran, and ran hard, in an effort to establish a new Olympic record. His performance was a very great disappointment after all that had been confidently expected. It was firmly believed that the most talked of athelete in the stadium, until the Marathon race results displaced him in this regard, would clip at least a fraction of a second off the record of 49½.

Instead, it took Halswelle a full 50 seconds to cover the distance. He started hard just as in the case of last Thursday, he was all out when he

A geat cheer went up when Halswelle finished, but much to the surprise of the spectators it was several minutes before a flag was unfurled and sent to the top of the staff to denote a British victory. The blue jackets having this work in hand had mislaid their Union Jack and they had to requisition one from hand had mislaid their Union Jack and they had to requisition one from the decorations of the stadium. Dorando, the Italian runner who was assisted yesterday to the tape in the finish of the Marathon race p who has quite recovered from the st. dn of his awful effort, desired today to lodge a protest of the giving this race to John J. Hayes, Irish-American A. C., on the ground that he had been interferred with by officials of the course, and that if he had been left alone he could have finished without assistance. His protest, however, would have come too late for consideration and he therefore did not enter it.

## **JESSE KNIGHT AS** SMELTER BUILDER

President Brimhall Declares That A Miner May Still Be A Christian.

DEDICATION OF NEW PLANT

And Prayer by President Smith At the Plant.

That Jesse C. Knight of Provo has founded a new era for the mining industry, in which he has proved that a man may be at the same time a Christian and a miner, was the tribute paid to him at Silver City yesterday after-

President Lund, with Mr. Knight and a group of friends went down the hill to the smelter, where a meeting place was arranged, and a brief service held, consisting of remarks by J. Will Knight and a dedicatory prayer by President Smith.

Following this service the party took. The words were spoken by President G. H. Brimhall, a fellow townsman, and were applauded by thousands of padges declaring them to be from Provo, Eureka, Nephi, Payson, Span-

ish Fork or Salt Lake. Behind the tented rostrum where President Brimhall spoke rose the majestic heights of Eureka peak, around which are circled the great mines from which Tintic's wealth is poured. In the immediate background were the steep roofs and tall sides of "hoisting works" which proclaimed with their slanting piles of blasted rock that here

stood the property of the Swanseas.

Before the rostrum on the lower slopes of the hill was the new Knight smelter, and far off in the valley below were the shimmering roofs of the Salt Lake route station on the main line to Los Angeles. The setting was a peculiarly inspiring one in which to pay a tribute to Mr. Knight for the work at Tintic which has made his Colorado and other mines famous, and his new smelter a necessity, while through his refusing to take advantage of the many tricks of the mining "game," has made him meanwhile a great citi

The train began going wrong by holding an "at home" in each siding after leaving Provo, and finally stalling three times on the Tintic branch road, landing its passengers, worn out and tried, at 2:30 p. m. instead of at 11:30 a. m. as scheduled. Returning at 7 p. m. the same train, this time increased to 14 coaches, kept the same program of long stops and arrived at Salt Lake at 12:35 p. m. Not a drop of water had been placed in any of the cars for the return trip, and sometimes the inconvenience of passengers on the long journey amountand sometimes the inconvenience of passengers on the long journey amounted to actual suffering. Mrs. James F. Dunn of Provo fainted when the train stalled on the incoming trip on a high trestle, and her husband after going through every one of the 14 cars was unable to secure a drop of water for her.

The people who turned out to pay a tribute of respect to "Uncle Jesse" Knight numbered nearly 8,000. Long benches on which an excellent lunch was served, had been arranged, and there was ample lunch for everyone in spite of the fact that the crowd was nearly three times as big as had been expected. SEVERAL NAMES SUGGESTED

No Choice Made at Informal Meeting Of Democratic Sub-Committee-Number Willing.

Chicago, July 25 .- If he will take the position, Norman E. Mack will manage the Democratic campaign this fall. He is Mr. Bryan's choice.

Mr. Mack, when the informal conference broke up, declared he was not a candiate for the chairmanship, but would serve if the party drafted him. This was generally taken to mean that he would be the new chairman.

When the sub-committee of the na party arrived here this afternoon, it was determined to convene at noon, but an informal session was held, beginning at 11 o'clock, in the green room at the Auditorium Annex, adjoining the suite occupied by Mr. Bryan, who arrived this morning from Lincoln. Soon after the informal meeting began, Mr. Bryan joined the committeemen. He said that in selecting the national chairman it is necessary that some man be appointed who has had actual business. ness experience as well as having served a long and honorable term in the ranks of the leaders in the Democratic party. Stress was laid upon the necessity of naming a man with qualifications as a business man. Several names were mentioned at that convention. Among mentioned at that convention. #### LIEUT. LAHM INSPECTING BALDWIN AIRSHIP

Washington, July 25—Today Lieut, Frank P. Lahm, the leading aeronaut of the army, is inspecting the various parts of the Baidwin airship which arrived at Fort Meyer on Saturday and

will submit his report to Gen. Allen, chief signal officer of the army, probably tomorrow. This inspection is for the purpose of determining whether Capt. Baldwin's craft fulfills all the requirements with regard to strength, weight and stability. Capt. Baldwin is confident that his machine will more than meet the requirements and Gen. Allen and the other signal corps officers seem to be of a like opinion. Lieut. Lahm made an inspection of the gas bag and other parts while in course of manufacture at Hammondsport, N. #### DESERTER FROM ARMY OVERTAKEN BY WIRELESS

New York, July 25.—Pursued in his flight from Bermuda by the wireless dispatches which led to his apprehension 500 miles at sea, Carl who deserted from the British army at Hamilton, Bermuda, in order that he might be with his American bride, was taken back to the military prison at St. George, while his wife is reported as seriously ill as a result of the dis-astrous ending of their romance.

The story was brought in when the Bermuda was docked at Hamilton, after a very tardy arrival in New York as a result of the fact that the garrison officials, suspecting that the young soldier was aboard, recalled the ship by wireless, giving at the same time description of him by which he was easily recognized.

It is reported that Goodwin recently married Miss Kate Goodwin, an Amer-

ican girl living in Bermuda, in viola-tion of the rule in the British army which prohibits privates from marrying and it was therefore necessary that he be smuggled out of the country. The young bride is said to have made all the necessary arrangements, bought his ticket to New York, and helped him to get aboard undetected.

Yesterday, all the when and children research, and the members of the family who live at Woodland, some three miles from this place, except the father, came to Kaplace, except the father, came to Kamas to celebrate the 24th. After the ball game in the evening the family drove home, and sent one of the boys on ahead to drive up the cows. As the boy came up to the corral his father came out of the house in a very ugly mood, being mad with drink and ordered the boy to drive the cows back again. Just then the rest of the family drove up and the mother told the boy to put the cows up so that they could be milked. The father then turned upon all the family and roundly abused them and ordered them to leave the place. The team was hitched up again and the wife and children began loading in some of their things, up again and the wife and children began loading in some of their things, among them being a riffe belonging to the oldest son, Will. The father continued his abuse, struck and choked his wife, when one of the boys got an ax to defend his mother. The old man then went to the house and got a revolver, threatening to kill the whole family. He chased after his son Will with the pistol leveled upon him The young man reached into the wagon and got his rifle and commanded his father to keep off. The old man came at his son with the pistol pointed at the latter, when the boy in self defense shot his father through the heart, killing him instantly.
